

Mobile Grand Stand

by I+D Actiu

An innovative grandstand concept that makes it possible to redesign the space quickly and efficiently. Its modular nature and the incorporation of castors easily dynamises the collaborative workspace, reconfiguring areas in which to share ideas and develop joint projects.

It offers each team the possibility of adapting its space to its needs and work methodology, and can therefore be configured as a bench, platform or shelf, depending on the moment. Each module also incorporates additional integrated storage space and can be complemented with additional poufs that provide greater comfort.

Recycled materials: Maximum use of materials to eliminate waste and minimize residues. Use of recyclable materials and recycled materials in components that do not affect functionality and durability. **Production:** Maximum optimization of energy use. Minimum environmental impact. State-of-the-art technological systems. Zero wastewater discharge. VOC-free coatings. Processes free of heavy metals, phosphates, OC and COD. **Transportation:** Removable systems. Volumes that facilitate space optimization. Maximum reduction of energy consumption per transport. **Usage:** Quality and warranty. Long useful life. Possibility of substitution and replacement of elements. **Disposal:** Waste reduction. Supplier-manufacturer packaging reuse system. Easy separation of components. Solvent-free, water-based printing inks on packaging.
