

TÁBULA TABLES - TAR 10

— By Actiu —

TABULA tables are a canteen and meeting tables program. These tables can be used on several environments due to its different models and styles.

Tabula offers a wide range of size and different base options to use them in canteens, small meeting points, break out areas or informal meeting/working areas. Table tops are available in glass, MFC and Compact Laminated, and both round or squared shaped with a round central column in steel allowing 3 different types of bases: round steel, round aluminium or cross aluminium.

	TAR10 TABULA TABLES	TAR20 TABULA TABLES	TAR30 TABULA TABLES
			
			
Base	Ø4,5 cm base made of 8mm thick Steel. Available in White, Silver and Black.	Ø 67,5 cm base with 4 support points on a cross base made of injected aluminium. Available in White, Silver, Black and Polished.	Ø 58 cm or Ø 66 cm base made of injected aluminium. Available in White, Silver, Black and Polished. realizada en aluminio inyectado.
Supports	Supports with anti-slip pads.	Supports with anti-slip pads. Optional: 45mm diameter black castors with Teflon tyre thread.	Supports with anti-slip pads.
Column	Ø 60mm central column made of 2mm thick steel. Available in White, Silver and Black.	Ø 60mm central column made of 2mm thick aluminium. Available in White, Silver and Black.	Ø 76mm central column made of 2mm thick steel. Available in White, Silver and Black.
Table top	25mm thick MFC tops and 13mm thick Compact Laminated top	25mm thick MFC tops, 13mm thick Compact Laminated top or 5+5mm thick security laminated glass with rounded edges.	25mm thick MFC tops, 13mm thick Compact Laminated top or 5+5mm thick security laminated glass with rounded edges
Alturas	40 cm / 74 cm / 110 cm	40 cm / 74 cm / 110 cm	40 cm / 74 cm / 110 cm
Outdoor table	---	Aluminium base, column and desk support to allow TAR20 to be used outdoor. Desk top required for an outdoor use: Compact Laminated.	---
Connectivity options	---	---	Electrification system in highlighted models with optional plugs or USB connections. Only available on MFC and Compact Laminated tops.

MATERIALS

Maximum use of materials to eliminate and minimize scraps. Use of recyclable and recycled materials in those components that do not affect the functionality and durability.

83,59%
RECYCLED
MATERIALS

PRODUCTION

Maximum optimization of energy use. Minimal environmental impact. Last generation technological systems. Zero discharge of wastewater. No VOC coatings. Processes free of heavy metals, phosphates, OC and COD.

100%
RECYCLABLE
ALUMINIUM, STEEL
& WOOD

TRANSPORT

Detachable systems. Volumes that facilitate the optimization of space. Maximum reduction of energy consumption by transport.

100%
RECYCLABLE
PACKAGE AND THINNER
FREE

USE

Quality and warranty. Long lasting. Replacements available.

EASY
TO CLEAN
AND MAINTAIN

DISPOSAL

Waste reduction. Supplier-manufacturer packaging reuse system. Components are easy to be separated. Inks in packaging are water-based, without solvents.

■ CERTIFICATES AND REFERENCES

The different programmes get points in different environmental categories to get the LEED certificate (sustainability, material and resources, water, energy and atmosphere, inner environment quality, innovation and design).
