D150 SCREENS

The prices indicated in this price list are indicative due to the fluctuation that the market currently has with respect to the materials used.

Before confirming the order, please check with the **sales department** to see if they are valid.

The D150 office divider allows you to **reconfigure a space in a matter of seconds**, creating streamlined areas that adapt to the needs of each task.

The D150 office divider can **adapt to contract and hospitality settings** that require private and separate areas within an open space.

ACTIU www.actiu.com

Design goes beyond aesthetics: innovation, space and furniture go hand in hand to create environments that are friendlier, more comfortable and more motivating for people: environments that are more dynamic, fresh, creative, ergonomic and functional.

A business philosophy in which design is part of our DNA, as we apply it to every facet of the company: products, architecture, projects, brand, communication, work spaces ...

Lightweight structural panel - **D150**

Model		Lightweight strue	ctural panel - D150						
Technical Features	 Extruded aluminium profiles silver finish Alloy cast moulded angles Polyamide covers and clips Panel different finishes: MFC Boards - 10 mm thickness. Frosted Polycarbonate - 10 mm thickness. Clear methacrylate - 5 mm thickness. MFC Board upholstered with fabric group T - 22mm thickness 								
	E-link system developed by Actiu is useful to install any configuration with 1 polyamide single clip easily and quickly. The system accepts different clips to do configurations with two or more panels.								
Link System	E-link system	3 -							
Supports		300 mm	380 mm	380 mm					
	Levellers (each module includes 2 levellers as standard)	Flat foot (optional) For aisles where people passing through	Double foot with levellers (optional) Ideal for configurations to divide areas	Double foot with castors (optional) Mobile foot ideal for configurations to divide areas					
	Height	152 cm	Height 182 cm						
Dimensions	Total dim Height: 1 Width: 820 / 10		Total dimensions: Height: 1820 mm Width: 820 / 1020 / 1220 mm

Materials: Maximum use of materials to eliminate and minimize scraps. Use of recyclable and recycled materials in those components that do not affect the functionality and durability.

Production: Maximum optimization of energy use. Minimal environmental impact. Last generation technological systems. Zero discharge of wastewater. No VOC coatings. Processes free of heavy metals, phosphates, OC and COD.

Transport: Detachable systems. Volumes that facilitate the optimization of space. Maximum reduction of energy consumption by transport.

Use: Quality and warranty. Long lasting. Replacements available.

Disposal: Waste reduction. Supplier-manufacturer packaging reuse system. Components are easy to be separated. Inks in packaging are water-based, without solvents.

Standards

D150 has passed tests done in our technical department as well as the tests done in AIDIMA the Technological Institute for furniture. The tests correspond to:

Standard	Description			
UNE: EN 1023-1:96	Office furniture. Screens. Part 1: Dimensions.			
UNE: EN 1023-2:96	Office furniture. Screens. Part 2: Mechanical safety requirements			
UNE: EN 1023-3:96	Office furniture. Screens. Part 3: Test methods			

Certificates

The different programmes get points in different environmental categories to get the LEED certificate or WELL certificate (sustainability, material and resources, water, energy and atmosphere, inner environment quality, innovation and design).
